

PRAYERS OF THE PEOPLE 06.14.26

Name above all, your name is higher than the rising sun.

We lift your name in praise as we remember your faithfulness. We are awestruck at the outpouring of your spirit displayed in the generosity of our Antioch family in the Dig Deep campaign. Thank you for generously providing a gathering place through the hospitality of our brothers and sisters of Foundry Church. Smooth the transition for the staff and volunteers as they learn new routines and settle into this new space. Awaken a spirit of joyful hospitality in our hearts in response to your generous grace, that we may shine as beacons of your light in our community.

Lord of light, you are stronger than darkness and new every morn.

Be Caitlyn Littrell's strong fortress as she undergoes chemotherapy this summer; spark moments of laughter and joy to sustain her through treatment and recovery. Walk beside the Kackley and Carlson families as they navigate Mia and Benjamin's cancer journeys. Thank you for the successful brain surgery of the Sundberg's son-in-law Ian; provide swift healing to Ian and peace to his family. Guide his medical team as they await test results and decide on next steps. For the many in our family struggling through mental and physical health challenges, cover them in your healing, your peace, and your presence; show them new mercies every morning.

Abba Father, remember your people. Protect your children suffering through persecution, war, and injustice. Comfort the Simonds family as we grieve with them over the loss of Xander. Reveal to them your love and care in every moment. Bolster the hearts of those who feel isolated and alone. Surround them with care and loving community; remind them that no sheep is ever forgotten by our good shepherd.

Creator God, we are surrounded by the beauty of your handiwork as spring blooms into summer. As the school year comes to a close, help settle students, teachers, and their families into new routines for the summer. Just as you cause the plants to grow, cause us to thrive in this season, turning us toward you as the source of life as plants turn toward the sun.

Amen.
