

## discussion questions

### Small Groups Setting

In an effort to build friendships, promote community and have a safe, intimate time of sharing we encourage you to create small groups of 5-8 women to further discuss each message.

### This also helps women:

- Identify what the Lord has spoken to them
- Process what they have learned and talk through personal application
- Creates accountability
- Offers encouragement and prayer support

### General Discussion Questions:

*(Can be used for any message)*

- What part of the message spoke personally to you...what was meaningful and impactful?
- What changes could you make to better align your life, priorities, attitude and actions with God's Word?
- Has the Lord directed you toward any action?
- How can we pray for you?
