

Family Worship

The following is a breakdown of how a family worship session can look like.

- Worship (listen to or if your able sing a worship song together)
- Discussion about quiet times (each member of your family talking about what they read that day)
- Scripture reading (I encourage you to read through a book of the bible)
- Discussion of the Scriptures (ask your student about what they think of the passage)
- Prayer (ask your student what they would like for you to pray about for them)

A great book to start with is the book of John, also think about moving from New Testament to Old and back and forth as it will teach your student to appreciate the whole bible.
