

THE NEXT 20

THE NEXT *Twenty*

Throughout the Bible, we see ordinary people trust God with extraordinary faith.

Abraham stepped out without knowing the full journey. David prepared for a future he would never personally see. Jochebed trusted God with her son's future. Esther chose courage so others could be saved.

They understood something powerful: faith is not only about today, it's about the generations to come.

Now it's our turn.

As we look toward The Next 20, we believe God is calling us to build beyond ourselves; for future families, future leaders, future salvations, and a future filled with hope.

We're believing for lives changed, communities impacted, and a legacy of faith that will continue for generations.

This Miracle Offering is an opportunity to step out in faith and give with vision and purpose. Together, we are not only meeting today's needs, we are sowing into the future God is preparing.

FUTURE DEVELOPMENT INITIATIVES BYFORD, SINGLETON & TUART HILL CAMPUSES

We believe in establishing permanent homes in our communities, and creating spaces where we can serve people well and make a lasting impact. To move toward this, we are continuing to invest into the Byford building fund and are now establishing dedicated funds for both Singleton and Tuart Hill. With land already secured in Singleton and Byford, these funds will help us take the next steps toward construction, while supporting Tuart Hill as we seek land and a future facility.

MADDINGTON CAMPUS

By investing in our Kids' Church spaces, we will complete the final stage of renovations and create a safe and vibrant environment where children can encounter God. The renovations include replacing the carpets, upgrading the ceiling and installing appropriate lighting panels to complete both rooms.

NARROGIN CAMPUS

Narrogin experiences significant seasonal weather changes, and so the next step for our campus is to install reverse-cycle air conditioning in the Chapel. This will create a welcoming environment throughout the year, allowing families to gather in comfort and creating a space for people to encounter God.

BIBRA LAKE CAMPUS

Our goal is to upgrade our sound, lighting, and technical systems, to help people engage deeply with God.

We also want to upgrade our café space to make it more welcoming for all who attend. These minor upgrades will set us up for the next season of growth.

THE NEXT *Twenty* 20

WESTERN AUSTRALIA – FACILITIES RENEWAL

Pregnancy Problem House has been a lifeline for women, teens and families navigating pregnancy-related challenges, offering practical support, compassionate care and a safe place to land. This year, as they mark 40 years of service, we are contributing to the renewal of five of their facilities so they can continue providing in-person care in spaces that are safe, functional and welcoming.

THAILAND - OUTREACH & DISCIPLESHIP

Across six locations, TheRiver.Asia is seeing remarkable growth as they reach people with the gospel and raise up new leaders for church-planting. Our support will help expand their outreach and discipleship efforts, equipping emerging leaders and strengthening communities across Asia. This investment fuels a movement that is bringing hope, training and transformation to places hungry for the message of Jesus.

INDONESIA & ASEAN – DIGITAL AND ON-GROUND MISSION PROJECTS

In Indonesia and across the ASEAN region, we are partnering with four mission initiatives that combine digital evangelism with practical, on-the-ground ministry. These projects include outreach to Muslim communities, prison and school ministry, and pioneering church-planting efforts in Malaysia and southern Thailand. Together, they represent a strategic and measurable investment in sharing the gospel where it is needed most.

PAKISTAN – SCHOOL FOR VULNERABLE CHILDREN

In regional Pakistan, we have the opportunity to help build a Christian school that will provide education, care and long-term support for poor and orphaned children. This project creates a pathway to stability, dignity and hope for young people who would otherwise have limited opportunities. By investing into this school, we are helping shape futures, strengthen communities and demonstrate the love of Jesus in a tangible way.
