

The Worship Production Team plays a vital behind-the-scenes role in creating a distraction-free worship environment. Team members serve in areas such as audio mixing, lyric slides, and live stream support to ensure smooth, high-quality worship experiences for both in-person and online attendees.

Job Summary

FOH (Front of House):

- Set up and manage soundboard for rehearsals and services.
- Balance and mix audio for worship, speaking, and media playback.
- Troubleshoot sound issues quickly and calmly.

Slides (Visual Tech):

- Run slides for song lyrics, sermon notes, and other lighting and media cues.
- Follow service flow closely and advance slides on time.
- Coordinate with worship leader and speaker for smooth transitions.

Video Switcher (Livestream and video capture):

- Operate streaming software and video equipment during services.
- Monitor audio and video levels for the online audience.
- Ensure a stable, high-quality stream throughout the service.

Team-Wide Expectations:

- Arrive on time for setup and sound check.
- Participate in team prayer and service planning, when applicable.
- Stay focused and attentive throughout the entire service.
- Communicate clearly with worship leader, pastor, and other team members.

Qualifications:

- A heart to serve and support worship through technical skills.
- Basic knowledge of production equipment. Training will be provided.
- Willingness to learn and be dependable with scheduled responsibilities.
- Attention to detail and ability to stay calm under pressure.
