

5 CORE PRINCIPLES

5 CORE PRINCIPLES

Mission is a mindset, not a model.

Across two decades of helping people cultivate mission, Forge America has developed a language for the key paradigm shifts that must be made to see movement happen.

MISSION

Mission means go.

To be the people of God
we must take the church to people,
not take people to church.

CONTEXT

Mission happens together.

Living sent necessitates identifying who is sent alongside you and the people you're inviting to come along.

COMMUNITY

Kingdom is in the overlap.

Developing missional culture begins with specific spaces, but culminates in the overlapping relationships that form.

FORMATION

Growth starts with action.

Spiritual formation in the way of Jesus comes with a bias toward action which drives our learning.

PRACTICE

Mission is a journey.

Developing a missional lifestyle is a lifelong journey best walked with a guide who has been there before.
