- Scissors
- Ribbon or twine
- A printed copy of the ornaments located on the home page.

Instructions:

Want to watch the instructions? No problem! Click this link: [Tips & Instructions for Making Ornaments](#)

1. Prepare your space by placing cardboard, a trashbag, or some other item over your table to keep from getting paint or Mod Podge on your table.
2. Paint the wooden ornament whatever color you choose using the sponge applicator. Allow time for the paint to dry.
3. Cut out the picture and reference for each ornament.
4. Using a clean sponge applicator, brush the Mod Podge on the back of the picture.
5. Center the picture on the ornament and press down. Feel free to use a credit card or popsicle stick to smooth out any bubbles underneath the photo.
6. Continue to brush Mod Podge over the top of the picture you just placed to create a clear coating.
7. Allow time to dry for at least 24 hours & repeat steps 1-6 for the scripture references on the back.
8. After your ornament has dried, take your twine (cut to whatever length you wish for your ornament) and fold it in half. Slide the twine through the hole and tie a knot to keep it secure.
