CEMETERY GAVESITE ASSIGNMENT (Burial Permissions)

The Cemetery Association has been working with families who own Cemetery Lots (defined as several grave sites on a Lot) in order to designate their wishes for burials in these gravesites, defining heirs and specifically assign gravesites to these individuals.

This starts with the owners and their families discussing their long-term wishes for those gravesites. The assignments are accomplished by working with the cemetery association and completing the Gravesite Assignment (Burial Permission) form. You can reference this form on the page below as an example of the assignment process.

If you own a Cemetery Lot and would like to pursue designating heirs for any remaining gravesites, please contact one of the Cemetery Association members below to answer any questions you have and to begin this process.
