

As a Newspaper editor, I always appreciate folks sending in local information such as this for me to use when I have space. You can look at the local newspaper's website and get contact information and email in (believe me, we love it emailed in instead of someone packing in a written copy that our staff has to type up and scan pics) The following is a sample press release that you could use - or write up your own info - and send in.

As we just finished the state and national championships, it's a great time to share the news and show off your/your kids' hard work! Feel free to change the release to whatever you need - State Runner-up, national finalist, etc.

And when they publish your archer's information, please post and tag us so we can also brag on them to the world!

For immediate release:
