LIVE TRANSFORMED.

**SPIRITUAL  
INTELLECTUAL  
EMOTIONAL  
AND PHYSICAL**

Family Legacy is a **Redemptive Child Development Organization** poised to powerfully impact the lives of vulnerable Zambian children. We help these children live up to their **God-given potential** by providing them holistic care: spiritual, intellectual, emotional, and physical.

COMMUNITY-BASED SCHOOLS

Our program currently serves over **12,000 vulnerable Zambian children and youth** to build their capacity to flourish as God designed. Our core work is carried out through a Christian education platform across **20 community-based schools, a medical and counseling wellness center**, and a **400-child residential rehabilitation village** that provides temporary refuge and recovery to the most vulnerable.

Through integrated and holistic care, we desire for **every child in our program to be restored to right relationship with God, others, and themselves**. Practically, we aim for children with improved capacity to **navigate their world and solve their own problems** by becoming **young adults who are committed to Christ**, emotionally and physically healthy, and in possession of the skills and resolve to positively impact themselves and others.
