**Why These Trees Matter:** Our fir trees come from a small farm in North Carolina that was hit hard by flooding last year. By sourcing from them, we're helping sustain local small businesses and providing disaster relief—one of our core missional priorities.

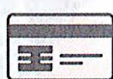

**Where Your Support Goes:** 100% of the profits from your tree purchase will go directly to our food pantry, another vital part of our mission to serve the community.

**It's a win-win:** restore community, support a small farm, nourish local families, and bring home a beautiful tree! **Wow!**
