

If you follow the Give, Save, & Live principle, your goal could be to Give 10%, Save 5%, and Live off of 85%. We are all in different stages in life; maybe you cannot Give/Save/Live the way you hope to, and that's okay. It's important to see where you are currently so you can move towards your goals. As you look at where you are at right now, you may only be able to Give 5%, Save 5%, and Live off of 90%, or maybe your actual total is greater than 100% (meaning that you are currently growing in debt). Additionally, you may have a goal or opportunity to Give more than 10%, Save more than 5%, and Live on less than 85%.
