Session 2 Reflection & Transition: Man as a Productive Being

---

Dear Brothers,

As we step forward into Session 2, it's important to pause and reflect on the foundation we laid together in Session 1. We established a vital truth: man was created as a creative being. Creativity is not a talent reserved for a gifted few—it is the first and fundamental expression of the image of God placed within every man. This truth reframes how we see ourselves, our work, and our purpose. Creativity is not something we acquire; it is something we remember.

Session 2 builds directly upon this foundation as we explore *Man as a Productive Being*. If creativity speaks to what God placed within man, productivity reveals how that creative nature was designed to function in the world. Productivity is the God-given capacity to generate, multiply, sustain, and bring vision into tangible form. It is creativity expressed with intention, stewardship, and impact.

This session is not about discovering something new—it is about recovering what was always there.

Every man carries a hidden design—an identity intentionally crafted by the Creator. Over time, that design can become buried beneath culture, trauma, mis-definition, and spiritual neglect. Our work together is excavation: digging beneath surface familiarity to uncover God's original blueprint.

To excavate is to remove what covers, to expose what was always present but unseen. As we continue, we will engage in Scripture not casually but deliberately digging beneath inherited assumptions and shallow readings. In doing so, we are not reshaping man according to preference or personality; we are revealing God's original intent.

Come prepared to dig. What we uncover has the power to restore clarity, responsibility, and purpose to how we live, work, and lead.

Blessings as we approach Session 2.

Pastor Jerry Fryar
