

Missionary Update

Camp Tadmor is a ministry of Church Venture Northwest and is rooted in relationship and seeks to serve the local community. It includes over 200 acres of forested timberland nestled in the foothills of the Cascade Mountain range between the cities of Lebanon and Sweet Home. Tadmor's youth programs are designed to support local youth pastors in their ongoing ministry. Through the Summer Ministry Training, high schoolers and young adults can receive concentrated hands-on training in ministry, discipleship, and service. Tadmor offers fun, gospel-centered camps for children entering 3rd grade through high school. And it also serves as a rental facility for retreats and events. Men from our church in the past have attended the annual Men's Round-up in September and also women from our church have attended the annual Women's Camp in July. Although our church doesn't directly support Camp Tadmor it does indirectly by the funds/scholarships we've provided to help our youth attend camps. Various youth who grew up in our church have attended or served at the camp. And currently two year-round staff members at Tadmor spent part of their youth in our church. **Please pray for the following requests:**

- *That more kids would be able to come. And that campers will surrender their lives to Christ.
- *That they can lead in the power of the Holy Spirit and in the wisdom of God's word and grow in discipleship/leadership development to be equipped to go back to their churches & communities.
- *That God will direct the year-round staff to His will and they won't get caught up in their own agendas
- *A safe environment in which God protects people and property.
- *God to use the programs for His glory, to build His kingdom. And that God will continue to provide financially.
- *Any high school or college students who would like to serve at Camp Tadmor can use this link: <https://tadmor.org/en/smt/> or go to the Camp Tadmor website: tadmor.org and click on the "Summer Ministry Team" tab at the top of the page and then click on the button "SMT application".
