

Below is a list of values. Select the values that answer these questions:

- What do I want to teach or represent most in the world?
- What concept or principle would I be willing to die for? What principle would you be willing to invest great resources like time, finances, energy and focus into?
- What brings the fight out of me when it is violated?

Using the process of elimination, narrow down your selection until you have five values identified. Of those five values, determine the most powerful, influential value, which all the others are connected to. This is your core value.
