

Starting up words computer (desktop)

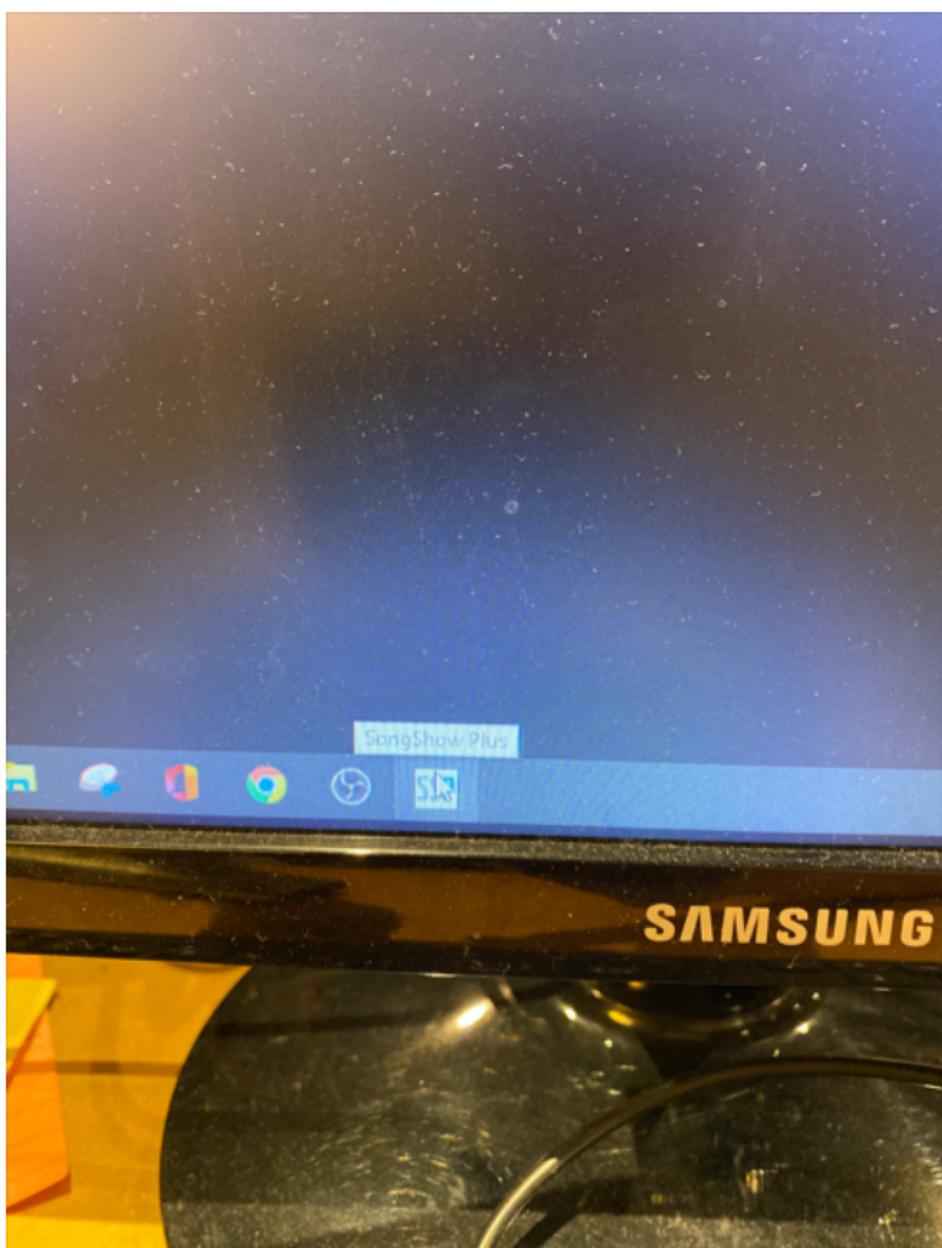

Make sure power strip is on behind sound board

Press power button on desktop

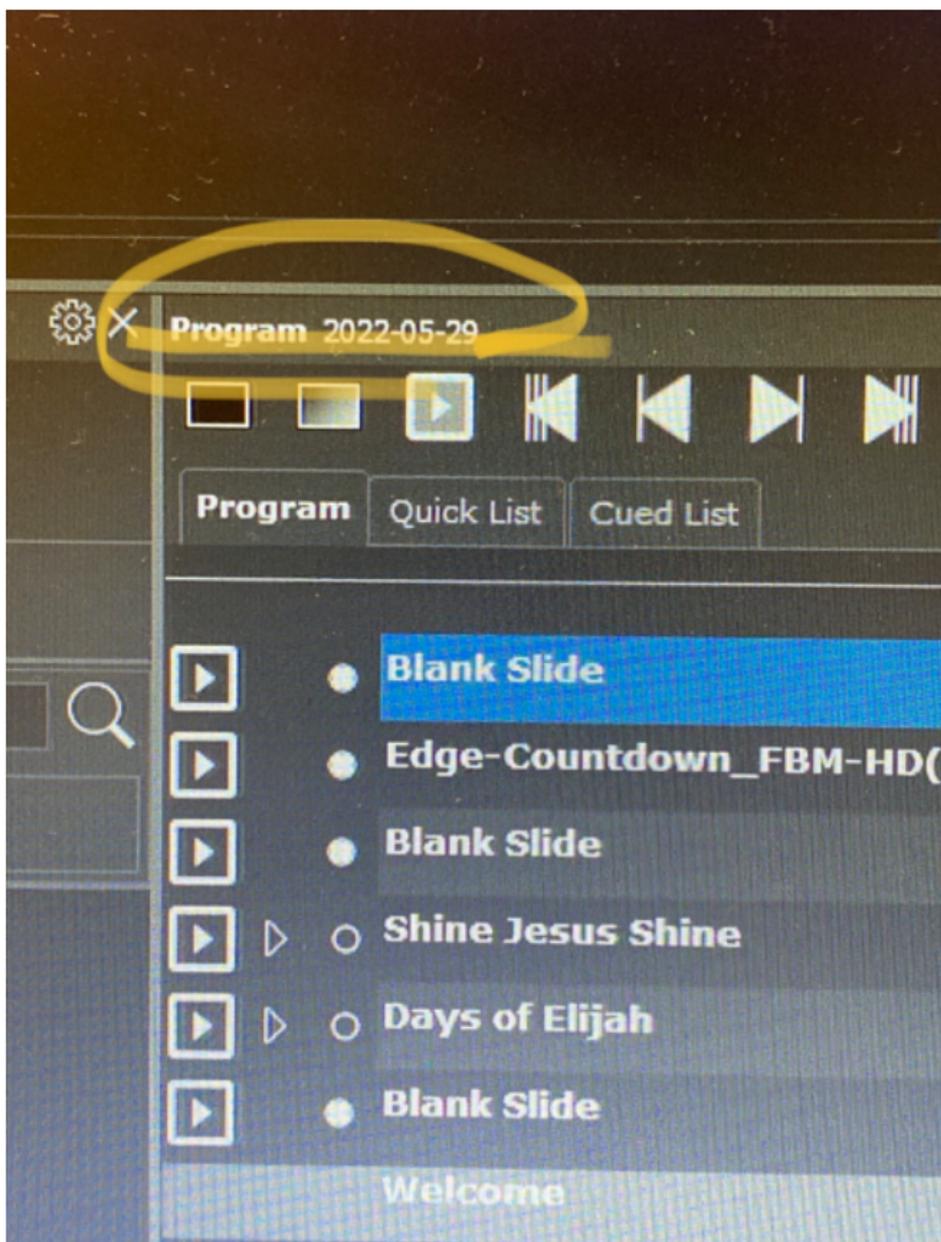

Once at desktop, open song show plus from the start bar:

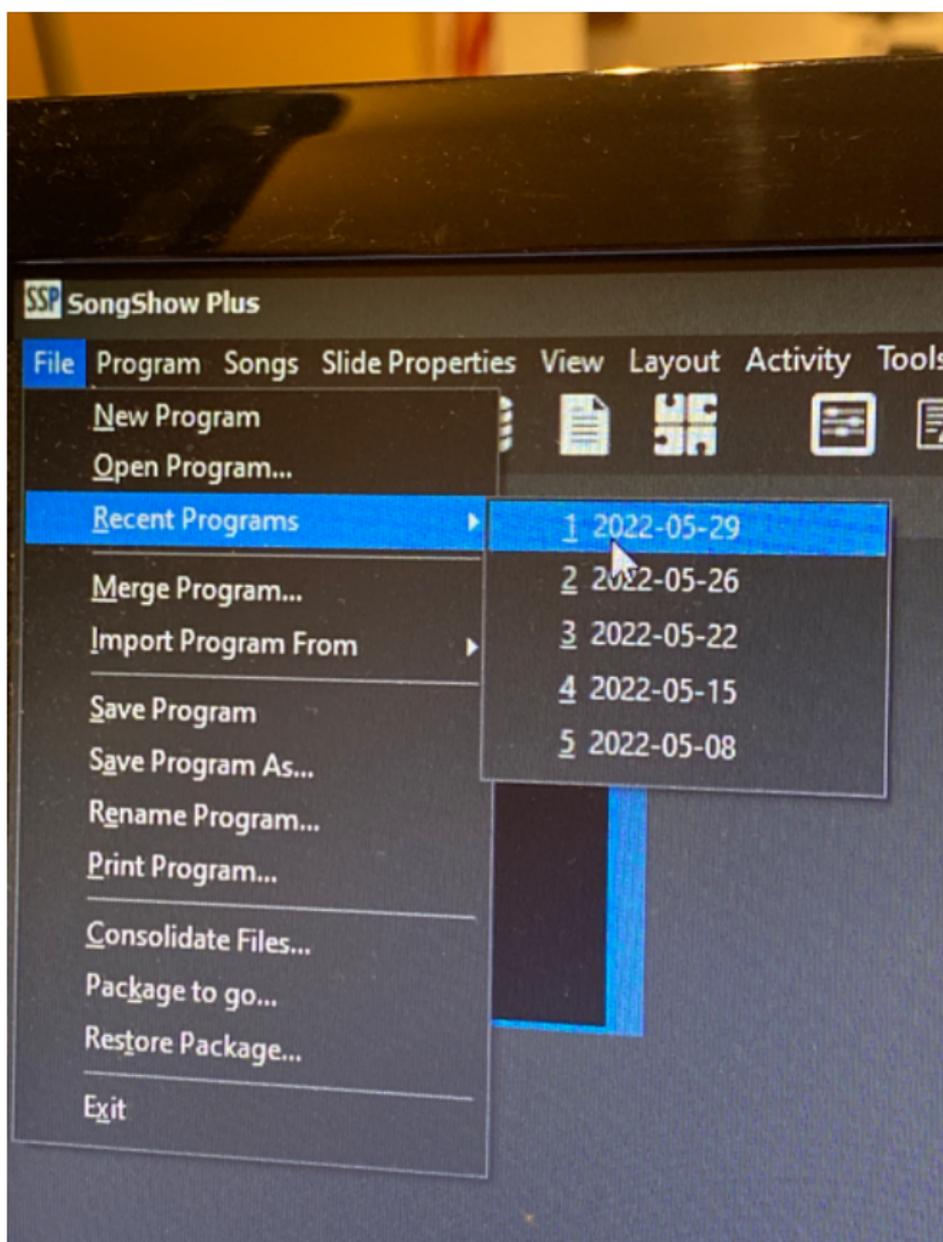

It should load the show created for this week. If you need to add items or create one, see Pastor Gary, Tyler Bush, Aaron

Johnson or Kathie Miranda

The name of the show is located in the lower right window and the date of the service is the name.

If you need to load the program click on File menu, recent programs and select the correct date

Now you can run the words just like normal

Be sure the TV monitors are on. Use the remote below, aim at tv one at a time and power on.

Once the service is over, power off the TVs and the desktop computer.
