

Through the Bible in 12 Months - Reading from Genesis through Revelation

There are numerous ways to read through the Bible. This is probably the most basic: starting at the beginning, read a passage a day in the order the books are arranged in the Bible. It's organized by month beginning in January, but you don't have to wait until New Years Day to start; you can begin any time.

Begin each session with prayer, asking God to open your eyes to the truth he knows you most need to see. If necessary, be willing to change your opinions, beliefs, and attitudes to conform with what he reveals to you each day. Space is provided for you to record your discoveries, write a prayer of repentance or praise, or make a note of something you'd like to investigate further.
