

## **God Helps Us**

### **by Ezekiel Rivas**

Hi boys and girls, it's my turn to do the kid story. So today we're going to talk about Jehoshaphat and how God helped him.

So Jehoshaphat is the king of Judah. If you know Judah, it's a place around Israel. And so one day the king, the king Jehoshaphat got a message from his messenger saying that some enemies have come, have come together and agreed to attack the land that Jehoshaphat owns, that he's the king of.

And so he wanted everyone in Judah to come together and meet at the temple. And so once they're at the temple, they all prayed, Jehoshaphat prayed that God would come God would help us, that God would help Judah through this hard time. And once he was done with the prayer, a man went into, or God went into a man, went into a man and told the man. And the man spoke up and said what God had told him.

The man spoke up and said that they would not have to fight at all. The armies would already be slaughtered, slaughtered when they got there. So right that day, God caused the enemies to all attack each other. And so they're all attacking each other. And so while Judah, like the country of Judah, is barely traveling, so when they get there, They realized that no, not even one person survived that. Survived. That all their stuff was there. All their stuff was there. No one was there. No one was there. They left their stuff there. And pretty sure there was a couple of fires.

So how God fought for you, he can fight for us sometimes Fight for us.

Let's end this with a word of prayer. God, thank you for protecting us. and helping us to do what's right. Thank you that you helped us, that you help us, and that sometimes we don't even have to fight. You can do it for us. You can do it for us. And we thank you in the name of Jesus. Amen.

Bye, boys and girls. See you next time.
