

PRESCHOOL

DISCOVERY DAYS

LITTLE STEM EXPLORERS

With Ms. Heather

Preschool is the perfect time to introduce your little ones to early math & engineering concepts and simple science experiments.

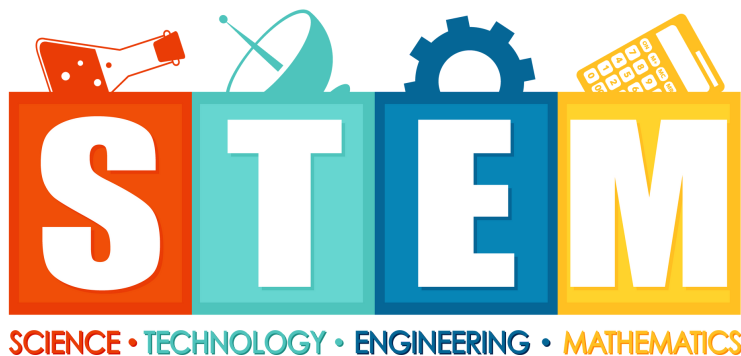

This is a fun, hands-on learning program. We'll experiment with **nature, art, & creativity** as we learn about magnets, simple machines (i.e. pulleys, wheels, levers), shapes, patterns, counting, building and more!

Each class will begin with a short lesson and then students will have the opportunity to work on a themed project for that week. They will typically bring home a STEM creation each week.

**Wednesdays &
Thursdays
Jan - May
\$200 PER SEMESTER**

FOR OLDER 3'S (AGE 4 BY 6/1/26) , 4'S, \$ 5'S
