

# STEM CAMP

WITH MISS HEATHER

May 26-29, 2026 10am-1:30pm

Cost: \$200 Campers must be 3 by January 1st

Preschool is the perfect time to introduce your little ones to early math & engineering concepts and simple science experiments. STEM Camp is a great opportunity for your curious scientists and creative thinkers to explore STEM challenges, experiments, and projects. This is a very hands-on camp where children will play with magnets, experiment with chemistry, build with different materials, explore nature, and more!
