

WALKER UPDATE

serving with JEWS FOR JESUS in New York City

Shalom from New York!

April 2026

We are so encouraged by what God has been doing in our branch this season and we are excited to share it with you!

Over the past few months, Tehillah's weekly community gatherings have remained a steady source of connection and joy. The "Maker Space" and "Watercolor & Sketching" meetups continue to draw local creatives into meaningful conversations. Our Wednesday "Knitting and Crocheting" group is becoming a place where trust and curiosity grow side by side. We have prayerfully decided to move this gathering to a time when the coffee shop is open, rather than after hours, and we are hopeful this change will make the group accessible to new people, while allowing the existing relationships to grow. We are thankful for the safe, welcoming environment these gatherings create, and ***we ask for your prayers that God would gently draw the hearts of those who attend toward His truth.***

This past February, we had the privilege of hosting and celebrating the marriage of a young couple from our Shabbat community. The bride came to faith through the ministry of several of our missionaries and boldly proclaimed the Gospel at her wedding, with many of her Jewish, unbelieving family members present. We were deeply grateful to stand with them and witness their courage in taking a clear and public stance for their faith. ***Please pray that their faith remains strong, their witness draws others to the Gospel, and that we continue to be an encouragement to them.***

At Moshava Art, this past season has been rich with creativity and community. Our gallery continues to serve as a bridge between the arts world and the message of hope we carry, offering a space where artists, neighbors,

and seekers encounter beauty and belonging. Earlier this year, we hosted a photography exhibit by an Israeli woman who has become deeply invested in our community, opening the door for meaningful relationships and spiritual conversations. We're also excited to share that our recent "Behind the Scenes" Staff Art Show, which features our own photos and paintings, has been a powerful expression of both creativity and testimony. We are grateful for each person who walks through our doors and ask that you ***pray they would experience peace, feel genuinely welcomed and be drawn towards Yeshua.***
