

GRACE GROUP LEADER GROWTH RESOURCES

January 7, 2024 - VOLUNTEER CODE

PLAYS TO WIN

COMES PREPARED - Everyone who walks through our doors is going somewhere for eternity. As Christians, we certainly want them to spend eternity with us with God in heaven. But, that doesn't happen for some unless they come to our church or group, are welcomed well, hear the Gospel and respond to it. So, let's be ready for them when they arrive. Grace Fellowship is a church who makes a lot of effort to attract new people. So, when they arrive we should be ready to receive them and do all we can to introduce them to the saving knowledge of knowing Christ!

Questions to ponder:

1. What do you do to prepare for having company?
2. Why is it a special time when you have company?
3. What can you do to emphasize this "being prepared" mentality to your church participation? To your group leadership?

MAKES THE TEAM BETTER

IS PRESENT - When you are working with kids, serving in the band, making coffee, or hosting a group, be present. Be in the moment. Be focused. Be prepared. In today's day and age we often see people looking at their phones in meetings or at home with the family present. That can be so annoying. We certainly don't want that type of quasi attention paid to others when serving in the church. They deserve our full attention.

Questions to ponder:

1. What message does it send to people when we don't fully pay attention to them?
2. How do you feel when you are interacting with someone and they are not fully present?
3. How can you make some movements in this area of your leadership?
