

## **Meet Harley & Her Family** ❤️

Harley is a young child who has already had to endure more than any child should. Just one month ago, she underwent a heart transplant, giving her a new chance at life. Now, her family has learned that Harley may need another heart transplant within the next 10 years.

This family needs all the love, prayers, and support we can give. Our goal is not only to help ease some of the financial and everyday burdens they are facing, but also to walk alongside this family, encourage them, and introduce them to the love and hope found in Jesus.

**Together, we can show Harley and her family that they are not alone. We can be the hands and feet of Jesus by loving our neighbor and helping those who need us most.** ❤️

*"Love your neighbor as yourself." — Matthew 22:39*
