Tyler had a check-up with his neurosurgeon this week and his MRI showed that the tubing for his shunt is not attached.

He is scheduled to have surgery this coming Friday to correct this so extra CSF fluid will get back to draining at the correct rate.

This will be done in Iowa City and we would appreciate prayer that Tyler will stay healthy this week and that the surgery and his recovery go really well.

Thanks to all of you for your prayers, love and support. We appreciate it so much!

Terry Howard

I know I have requested lots of prayers. But my niece Brenda Johnson is having heart surgery on Friday and it is very risky because her heart is so bad. Please keep her in your prayers. She is only 55.

Gary's surgery went well, however his blood pressure is running a little low. They want it to be normal on it's own so they are keeping him another day. We'll see how it does tonight.

Dear Prayer Partners,

Pat and I greatly appreciate your partnership in the gospel as you pray for us and the people to whom we minister. Please pray for our gentle and understanding Savior to deeply minister to the following people...

1. Juli in Myanmar who is flying to Des Moines, IA May 28th to be reunited with her husband James.
2. Vilma in the Philippines whose believing husband died recently and now she knows she will see in him again in heaven after she believed in Christ alone for His gift of everlasting life. Pray for her and her children as they walk through their grief with Jesus' help.
3. Nicole in Guyana who recently witnessed her son's murder as did her other children. She is a believer, but her church does not seem to know how to help her, nor does there seem to be any counseling available to her. She feels all alone and I have encouraged her to invite Jesus to walk with her and her family through this trauma.
4. Jeff's mother, Shirley, who recently went into the ER with a severe headache and loss of some mobility. Doctors have identified a lesion inside her skull on the back of her head but are not certain if it is cancer or has spread. Please pray for God's healing, wisdom, and comfort during this difficult time for her and the family.

Thank you so much for lifting these precious people up to Jesus,

Pastor Jeff Ropp

Thank you so much Prayer Team for your prayers for Taylor and his family here in Florida. The surgery went well and the surgeon was able to remove the majority of the tumors. The pathology report is due within the next two weeks as well as next steps. All in all it seems positive and we appreciate continued prayers for this young family. God is good.

Your brother in Christ, Rich Dougherty
