Thank you for your prayers for my step dad Bill and mom Colleen. He entered hospice 3 weeks ago. Since he has recovered from pneumonia and gotten anxiety/depression managed, he is doing well. Answered prayer includes getting a stable and pleasant rhythm going for in home care, physical and emotional strength returning to Bill and peace of mind during this time. Our family thanks you for supporting us in prayer as we continue to care for our aging parents.

We are so thankful for those who have stepped in and stepped up during our time of transition. We believe God wants us to be a church that continues to point students to Jesus and one who is sold out in our worship to him. We invite you to join us as we continue to pray together for a Worship staff and Student Ministry staff. We are eagerly anticipating for God to show us the people He is preparing to fill these roles at NewLife Church.

Pray for our Students going to CIY Conference: CIY "Move" is a 5-Day youth group event for high school students designed to amplify the call of Christ on students lives to become Kingdom workers. Several of our students and parent leaders will be attending this coming week (July 11-15) at the campus of the University of Nebraska. We anticipate God to move mightily in the hearts of our students. We pray for safety and that they would return filled with His Spirit and ready for his work. Pray for Nash, Ella, John, Ellie, Emma, Elijah, Liz, Josh, Alexia, Cece, Andy, Julie & Jenny.

Yesterday I & Gary's kids made a hard decision. Gary is too weak and would require a trach after removing the breathing tube as he cannot make it without it. He does not want that, and he doesn't want to be even more disabled.

So we are going to let him go home. His family are coming back to say goodbye. Then we will let him go. Pray for his daughter DeAnne as she is taking this very hard, but she also doesn't want him suffering anymore. -Peggy Yeager

Gary needs continued prayer. He was intubated & yesterday they tried removing the tube but he is too weak to cough up the mucus so he can breathe on his own. The tube was put back in. They will give him 2-3 days to recover & get stronger. If he still cannot do it on his own then he will need a trach tube. Both I and his kids don't want that. Gary would not want that. Continued prayer is needed. We ask that you pray for God's will in this. Thank you to all of you. Peggy

Coni Darr

Dear NewLife Family,
Please pray for Dick Curry as he fell at his memory care facility on Friday and was taken to the hospital that evening. Tests determined he had urinary tract infection and bacteria in the blood needing overnight stay with meds

to help fight the infection. Doctor ordered a cat scan performed to determine recent changes in behavior and the early Sunday morning scan determining there was bleeding on the brain. At this time he and family are dealing with end of life measures. We would appreciate your prayers and thoughts during this challenging time.

Hi Dear Family, we'd appreciate prayers for Jeff s Mom Shirley and his Dad Allen. Mom had a heart attack on Sat, and later found she has covid. She is currently in DM hospital. Last month they also discovered a lesion on her brain so will be seeing neurologist in July. Thx you all! She was able to see us all Sat including meeting her Great Grandson Titus! We love you all. Thx!
