NewLife Church	<p>An update on Gary Yeager: we saw the Ortho Dr today and had x-rays retaken on his hip. No changes can be seen yet. It has been almost 4 weeks since he fell and broke his hip. The Dr said that you usually can't see improvement on x-rays until at least 6 weeks. However, it has not been hurting Gary as much this week, so we take that as a good sign that healing is taking place. We will go back in another 4 weeks to have x-rays again. Please keep praying. thank you!</p>	Prayer Requests - General
