Sandy Lubberden

Please continue praying for Norm. I had to take him to Lutheran ER today. They are keeping him because his blood oxygen level kept dropping. Got him on Oxygen but if he got up, his oxygen level would drop to 74. Probably will have to wait until tomorrow afternoon to get a room. They are packed. Thanks Sandy

NewLife Church

Jim Young is having surgery to replace his pacemaker and some of the connections to it.

Sandy VanderLinden is having major surgery for the severe tremors in her right hand, shoulder and arm. It will be a five hour multi-step surgery that involves implanting a stimulus lead in her brain. This is scheduled for Thursday 8/25 at 7:30 am.

Norm Lubberden has COVID. Sandy reports, "It's in his lungs and we have to watch his blood oxygen level to make sure it doesn't get to 89 or lower. He would have to be hospitalized."

Mike Chamberlin is dealing with cancer.

Sandy Lubberden

Please pray for our daughter Dora. She just told me that she has to have a biopsy tomorrow on her right breast because she has a cluster that they have been watching and it has changed. Thank you

David VanderLinden	Asking prayer for my wife, Sandy. Next Thursday she is having a major surgery for the severe tremors that she has in her right hand, arm and shoulder. It is around a 5 hour multi-step surgery that involves implanting stimulus leads in the brain. Praying for God, our great physician and healer, to be in charge of the surgeons and technicians during the process and to give Sandy healing with a good result. Thanks in advance for your prayers. Terry Howard

I want to thank everyone for their prayers, cards and blanket. They were very much appreciated and I could feel the peace of God with me throughout surgery. I am having a pretty smooth recovery and I'm back to riding the elliptical every day. I would like to still ask for prayers for Donnie Christensen, the cancer has spread into his throat and lungs and the doctor's say there is not much they can do for him. I ask for strength and comfort for Donnie and that the new chemo they are trying gives him relief from the pain.
