It was so good to be able to come to Church this morning. Thank you for the prayers. My hemoglobin numbers are going up. I was 9.6 on Friday. Tuesday I will have labs, see the Dr. and get a retuxin infusion. Pray for that number to keep going up. God is good!

“Please pray for Mike and Judy Chamberlain and their family. Mike is battling cancer and his hemoglobin has been dangerously low for 3+ weeks. On Friday he needed 3 more units of blood. Pray that he can return home, that his body begins to produce enough hemoglobin to return to normal functioning, that God would be glorified through this challenge and that they would feel the embrace of Jesus minute by minute. Thank you!”

Lisa Olson

New Life Family, I am asking for prayers for my mom. She fell at her home and was unable to get up, thank God Dave and I showed up for dinner. We don't know exactly how long she laid there, she thought maybe since 3:45 and we found her at 5:15. She is in the emergency room, we haven't been able to get back to see her yet. Please pray hard that she didn't break anything. She said she hurt her back and hit her head. Thanks you so much. Lisa
