

HOW YOU CAN *pray*

Pray that those involved in Bible translation would persevere and not grow weary before the translation work is complete.

Pray for God to open the minds and hearts of the Himba people to the light of the gospel.

Pray for God's Word to be translated into languages where Christ is not yet known.

Pray that God would provide the Himba people with their own oral translation of God's Word.

family **TABLE TALK**

**Imagine if you had to write all of the words
in the Bible in another language.
Would it be hard? How would it make you feel?**

Many people in the world do not have the Bible in their own language. Some of the languages people speak do not even have a written alphabet. This means translators must create an alphabet before they begin translating the Bible.

Create your own alphabet using a different symbol or shape to represent each letter. After you have created your new alphabet, pick a Bible verse to write in your new language.

What was it like trying to read the verse in a language you do not know?

What do you think it would be like trying to learn about Jesus if you didn't have the Bible in your language?
