

WHO ARE STREET CHILDREN?

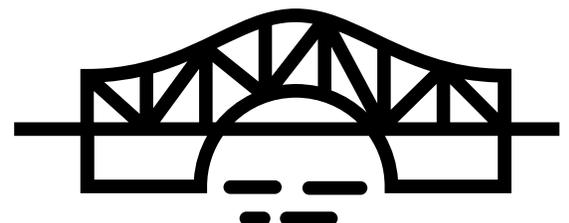

Street children are children just like YOU except they live on the street and depend on it to survive.

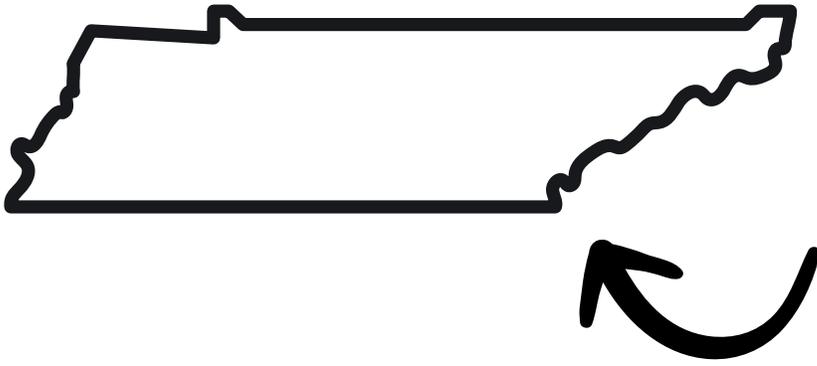

There are more than 100 MILLION street children in the world!

They often grow up living in garbage dumps, train stations, or under bridges in big cities.

**Over 200,000
street children
live right here in
Tennessee!**

**Most street children
around the world are
never able to go to
school. They grow up
never knowing how to
read or write.**

HOW CAN YOU PRAY?

Grab your favorite book and read it with your family. Then, spend some time thanking God that you are able to learn how to read and write. Also take some time to pray for street children who may never be able to attend school.
